\$320/M

Subscribers to DN Zone Weekly are developing .NET applications using any number of different programming languages. The most popular languages tend to be C# and VB.NET, COBOL, Python and more. The .NET Framework is Microsoft's application development platform that enables developers to easily create Windows applications, web applications, and web services. DNZone, the website, is part of The Dynamic Zones Network where the world's web developers go to share their knowledge, stay on top of developments, learn advanced skills, purchase extensions and books, and much more.

The network is made up of five portals, or zones, and has a combined membership of over 600,000 active web developers worldwide. These web developers are employing the most sophisticated technologies, such as Dreamweaver, Flash, Cold Fusion, ASP.Net, and more to build dynamic, feature-rich web sites and applications across a variety of platforms.
